

# Health Savings Accounts

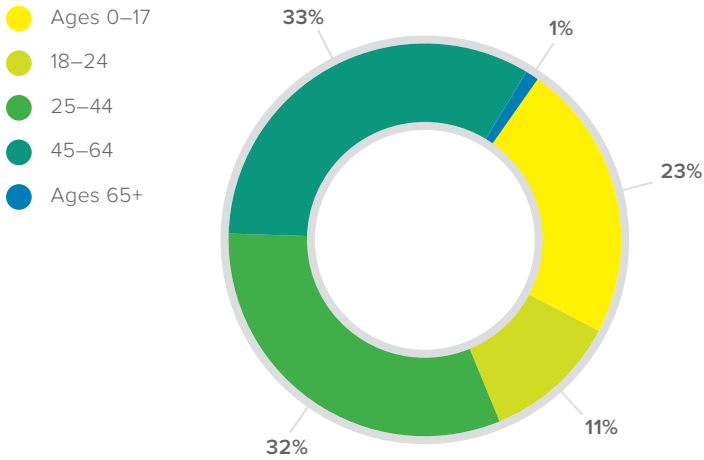

## Providing High-Quality Coverage to 21.8 Million People

Health Savings Accounts (HSAs) provide an attractive option for employees, employers, and individuals looking for help in making health care more affordable. With more than 21.8 million lives covered, and continued enrollment growth expected in the coming years, HSAs and high deductible health insurance products represent another vital option for Americans looking to manage their health care needs.

### Enrollment in HSAs Continues to Grow

## HSAs Provide Valuable Coverage Options for All Ages

82%

of those enrolled in HSAs were in the Large Group Market

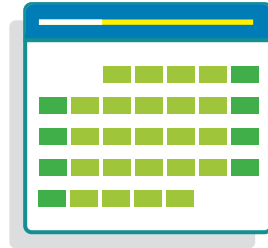

## Benefits of Health Savings Accounts

HSAs give you incentives to manage your own health care costs

HSAs allow you to pay for eligible medical expenses with pre-tax dollars

The funds in your HSA can be rolled over from year to year

Many plans have created tools to help you manage your HSA account online
