

7 THINGS YOU NEED TO KNOW ABOUT Medicare Advantage

22 million seniors and people with disabilities choose Medicare Advantage. Unlike traditional Medicare, Medicare Advantage delivers better services, better care, and better value, and continues to receive high rates of satisfaction to members who use it.

Providing Better Financial Security

Medicare Advantage caps out-of-pocket costs each year. These caps help protect seniors and people with disabilities financially in addition to their physical health. By doing so, **vulnerable seniors—like those who make less than \$20,000 a year, who disproportionately choose Medicare Advantage¹—have access to stable, high-quality health care.**

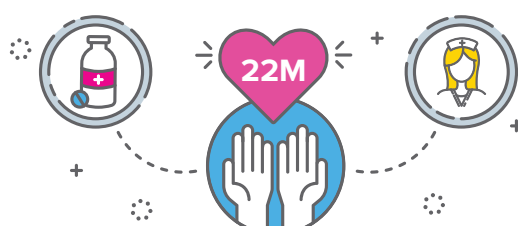

Reducing Costs for Taxpayers

Medicare Advantage also helps drive down costs for taxpayers: the more people who enroll in Medicare Advantage, the slower costs grow for traditional Medicare.²

Helping People Stay Healthy

Medicare Advantage outperformed traditional Medicare on 16 out of 16 clinical quality measures, including hospital readmissions, breast and colon cancer screenings, and medication adherence.³

Popular and Growing

Medicare Advantage plans cover 22 million Americans. **That's more than 33% of all Medicare beneficiaries in the nation.** People are choosing Medicare Advantage plans because they deliver better services, better care, and better value.⁴

Medicare Advantage Delivers Better Services

Medicare Advantage provides the same benefits as traditional Medicare—and so much more. Examples include:

Care coordination and disease management

In-home support services

Wellness programs

Vision, hearing, and dental benefits

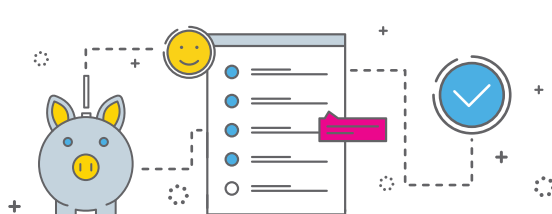

Transportation benefits

Payments Now Equal to Traditional Medicare

Today, the Medicare program spends the same amount on average for Medicare Advantage as it does for traditional Medicare. But because **Medicare Advantage plans deliver more benefits and better value than traditional Medicare,** Americans are getting more for less.⁵

Seniors Give Medicare Advantage High Marks

Affordability, competition, additional benefits, broader choice, flexibility... No wonder **Medicare Advantage beneficiaries are overwhelmingly satisfied (90%) with their plans!**⁶
