

API ORDER FORM

API: \$ 600.00

1- You need a developer on your end that has knowledge and access to the source code of the app that they would like to integrate the API into.

2- You will receive a document that explains how to use the API as well as some sample code in C#

3- Once the order is placed, you will get an email with the access code that you need to use with the API, a list of the data fields labels to expect and 3 badge IDs for testing.

Please Note: Late or on-site registrants data may not be immediately available but upon receipt of final registration database this data will be updated.

(For API details please see attached)
